## **Section 4: Narrative of Incident (Insured's Statement)**

Date of Statement: May 05, 2025

Time of Incident: 10:45 AM

Maria Petrov provided the following statement:

"I was driving eastbound on Main Street, heading to a grocery store. The weather was clear, and traffic was moderate. I was approaching the intersection with Oak Avenue. The light for eastbound traffic on Main Street was green. As I entered the intersection, I looked both ways and saw no immediate danger. Suddenly, a blue truck came out of nowhere from my right, going northbound on Oak Avenue. The light for traffic on Oak Avenue was red, and the truck was clearly not stopping. I slammed on my brakes and swerved to the left to try and avoid it, but it was too late. The truck, a blue Ford F-150, hit the passenger side of my Toyota Camry, right around the front door. The impact was loud and jarring, and my car was pushed sideways."

"My airbag did not deploy, but I hit my head on the window and my body was thrown to the side, causing my neck to snap back. My car came to a stop in the middle of the intersection. I immediately put the car in park and checked on the driver of the truck. He looked fine, but his truck had significant front-end damage. I was shaken but was able to get out of my car. I told him we should call the police and our insurance companies. He agreed. I took out my phone and called 911 right away to report the accident. I also took a few pictures of the scene with

my phone. The police and paramedics arrived within minutes."

"The paramedics checked me out and said I had whiplash and some bruises, but nothing serious. They advised me to follow up with my doctor if the pain worsened. The police officer, Officer Martinez, spoke with both of us and a few witnesses. The other driver admitted he was distracted and didn't see the red light. I gave the police officer my driver's license and insurance information. He gave me a copy of the police report number. After the tow truck arrived and took my car away, my husband came and picked me up. I have a headache and my neck is sore, but I'm just glad no one was seriously hurt."
